

DIGIPHARM MISSION STATEMENT

Our Vision for Lesotho

To become the nation's most trusted digital health platform by 2030, reducing healthcare disparities through technology that respects both modern science and cultural traditions.

Core Values

1. Accessibility

- Free basic health information for all
- Low-bandwidth compatibility for rural areas

2. Integration

- Collaborate with:
 - Ministry of Health
 - Traditional Healers' Association
 - Local clinics and hospitals

3. Evidence-Based Practice

- Medical content reviewed by:
 - Board-certified physicians (minimum 3 per article)
 - Pharmacists for medication safety

4. Community Empowerment

- Training programs for:
 - Village health workers
 - School health workers
 - Traditional healer digital literacy
